

BLOOMICE – ENVIRONMENTAL POLICY STATEMENT

Bloomice is committed to conducting its business in a manner that protects the environment, supports sustainable development, and complies with all applicable environmental legislation and recognised standards. We recognise that our activities, including light manufacturing, product assembly, logistics, and packaging, have environmental impacts, and we are committed to minimising these impacts through responsible management and continual improvement.

Our Commitments

Regulatory Compliance and Governance

Bloomice will:

- Comply with all applicable UK environmental legislation, regulations, and other compliance obligations.
- Maintain and continually improve our Environmental Management System (EMS) aligned with ISO 14001 principles.
- Establish measurable environmental objectives and monitor performance against agreed targets.
- Integrate environmental responsibility into business planning, operational decision-making, and risk management.

Climate and Resource Efficiency

We are committed to reducing our environmental footprint by:

- Reducing greenhouse gas emissions and supporting the UK's Net Zero transition.
- Improving energy efficiency across operations and facilities.
- Reducing water consumption and protecting water resources.
- Using raw materials, components, and natural resources responsibly and efficiently.

Waste Reduction and Circular Economy

Bloomice will:

Reduce waste generation through improved design, manufacturing efficiency, and operational controls.

- Prioritise reuse, recycling, and responsible disposal of materials.
- Minimise packaging waste and promote sustainable packaging solutions.
- Work towards reducing waste sent to landfill wherever practical and economically viable.

Sustainable Procurement and Supply Chain Responsibility

We aim to:

- Incorporate environmental considerations into supplier selection and procurement decisions.
- Work collaboratively with suppliers and partners to improve environmental performance and responsible sourcing.
- Promote environmentally responsible product design, lifecycle management, and material selection.

Operational Responsibility and Transport

We will:

- Optimise logistics and business travel to minimise environmental impact.
- Encourage the use of efficient transport planning and lower emission transport solutions where feasible.

Employee Engagement and Awareness

Bloomice will:

- Provide employees with training, resources, and leadership support to meet environmental objectives.
- Encourage employees and contractors to operate in an environmentally responsible manner.
- Promote a culture of environmental awareness, accountability, and continuous improvement.

Stakeholder and Community Engagement

We are committed to:

- Working with customers, suppliers, regulators, and local communities to support environmental improvement.
- Communicating our environmental commitments and performance transparently where appropriate.

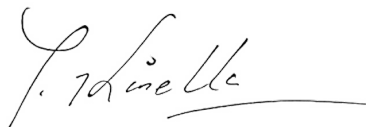

Implementation and Review

This policy applies to all Bloomice employees, contractors, and organisations working on our behalf.

Responsibility for implementation rests with senior management, supported by designated environmental leadership roles.

This policy will be reviewed at least annually and updated to reflect regulatory, technological, and organisational changes.
